Other Events

- On July 1, 2009, CeliCare Health Plan of Massachusetts began serving the Central, Northern, Boston and Southern regions under the Commonwealth Care program. CeliCare was also recently granted a seal of approval by the Commonwealth Connector Authority for the Commonwealth Choice program. Commonwealth Choice is part of Massachusetts' health care program, serving the individual and small group market and is not a subsidized program. CeliCare now participates in two of the three health coverage programs in Massachusetts.
- In July 2009, the Company was awarded a tentative contract from the Texas Health and Human Services Commission (HHSC) for the Children's Health Insurance Program (CHIP) Rural Services Area Managed Care Organization Procurement. The award is contingent upon the successful negotiation and execution of a contract with HHSC. Our Texas health plan will begin serving members under the new contract on September 1, 2010, continuing through August 31, 2013. The award covers up to 174 primarily rural counties in Texas.

Michael F. Neidorff, Centene's Chairman and Chief Executive Officer, stated, "We are pleased that our strategic and operational focus on fundamentals continues to drive this positive operating momentum."

Statement of Operations

- For the 2009 second quarter, Premium and Service Revenues increased 16.1% to \$931.3 million from \$802.5 million in the 2008 second quarter. The increase was primarily driven by membership growth, especially related to the commencement of our Arizona acute care contract in October 2008, the consolidation of Access and conversion of members to our at-risk plan, premium rate increases and the recent acquisition of Celtic in July 2008.
- The consolidated HBR, which reflects medical costs as a percent of premium revenues, was 83.1%, relatively flat compared to 83.0% in the 2008 second quarter. Sequentially, our consolidated HBR decreased from 83.5% in the 2009 first quarter to 83.1% as a result of normal seasonality. During the second quarter, an increase in outpatient expense attributable to swine flu concerns was offset by lower inpatient and pharmacy costs.
- Consolidated G&A expense as a percent of premium and service revenues was 13.9% in the second quarter of 2009, an increase from 13.6% in the second quarter of 2008. G&A expense increased in the quarter ended June 30, 2009 compared to 2008 as a result of new business initiatives including the acquisition of Celtic, the consolidation of Access Health Solutions LLC and the start up of CeltiCare health plan in Massachusetts.
- Earnings per diluted share from continuing operations were \$0.47, compared to \$0.40 in the 2008 second quarter.

Centene's claims reserving process utilizes a consistent actuarial methodology to estimate Centene's ultimate liability. Any reduction in the "Incurred related to: Prior period" claims may be offset as Centene actuarially determines "Incurred related to: Current period." As such, only in the absence of a consistent reserving methodology would favorable development of prior period claims liability estimates reduce medical costs. Centene believes it has consistently applied its claims reserving methodology in each of the periods presented.

The amount of the "Incurred related to: Prior period" above includes the effects of reserving under moderately adverse conditions, new markets where we use a conservative approach in setting reserves during the initial periods of operations, increased receipts from other third party payors related to coordination of benefits and lower medical utilization and cost trends for dates of service prior to June 30, 2008.
