**-- Revenue Guidance Increased --**

**-- WellCare Integration Progressing Extremely Well --**

ST. LOUIS, April 28, 2020 /PRNewswire/ -- Centene Corporation (NYSE: CNC) announced today its financial results for the first quarter ended March 31, 2020, reporting diluted earnings per share (EPS) of \$0.08 and Adjusted Diluted EPS of \$0.86.

In summary, the 2020 first quarter and results were as follows:

Total revenues (in millions)	\$	26,025
Health benefits ratio		88.0 %
SG&A expense ratio		9.9 %
Adjusted SG&A expense ratio <sup>(1)</sup>		8.6 %
GAAP diluted EPS	\$	0.08
Adjusted Diluted EPS <sup>(1)</sup>	\$	0.86
Total cash flow used in operations (in millions)	\$	(240)

<sup>(1)</sup> A full reconciliation of Adjusted SG&A expense ratio and Adjusted Diluted EPS are shown on page seven of this release.

Both diluted EPS and Adjusted Diluted EPS have been negatively impacted by \$0.05 due to lower investment income and incremental senior note interest expense. Taking into account the \$0.05 per diluted share, our Adjusted Diluted EPS was in line with our expectations and the guidance of high \$0.80 to low \$0.90 range provided on March 4, 2020.

"We all recognize the unprecedented nature of the COVID-19 pandemic and the significant impact from both a health and economic perspective. This is not a business as usual environment and economic recovery will be choppy. In this challenging landscape that we all face, Centene has the team, systems, expertise and financial strength to rise to the occasion," said Michael F. Neidorff, Chairman, President and Chief Executive Officer of Centene. "We are confident in our approach to navigate the crisis while executing on our priorities and remain highly committed to meeting the needs of our members, providers and our state customers."

## First Quarter Highlights

- On January 23, 2020, Centene acquired all of the issued and outstanding shares of WellCare Health Plans, Inc. (WellCare). The transaction is valued at approximately

\$19.6 billion, including the assumption of debt. The Centene and WellCare combination creates a premier healthcare enterprise focused on government-sponsored healthcare programs. Our consolidated financial statements as of and for the three months ended March 31, 2020 reflect WellCare operations beginning January 23, 2020.

- March 31, 2020 managed care membership of 23.8 million, an increase of 9.0 million members, or 61%, over March 31, 2019.
- Total revenues of \$26.0 billion for the first quarter of 2020, representing 41% growth compared to the first quarter of 2019.
- Health benefits ratio (HBR) of 88.0% for the first quarter of 2020, compared to 85.7% in the first quarter of 2019.
- Selling, general and administrative (SG&A) expense ratio of 9.9% for the first quarter of 2020, compared to 9.6% for the first quarter of 2019.
- Adjusted SG&A expense ratio of 8.6% for the first quarter of 2020, compared to 9.5% for the first quarter of 2019.
- Diluted EPS for the first quarter of 2020 of \$0.08, compared to \$1.24 for the first quarter of 2019, reflecting an increase of acquisition related expenses due to the closing of the WellCare acquisition.
- Adjusted Diluted EPS for the first quarter of 2020 of \$0.86, compared to \$1.39 for the first quarter of 2019. Both diluted EPS and Adjusted Diluted EPS for the first quarter of 2020 have been negatively impacted by \$0.05 due to lower investment income and incremental senior note interest expense. The \$0.05 of lower investment and other income resulted from a sharp decrease in interest rates, which caused a fair value decrease to our exchange traded fund portfolio, as well as incremental interest expense associated with our decision to defer the redemption of the 2022 senior debt securities.
- Share repurchases of 9 million shares of Centene common stock for \$500 million through the Company's stock repurchase program during the three months ended March 31, 2020, using divestiture proceeds.
- Operating cash flow of \$(240) million for the first quarter 2020. Operating cash flow was negatively affected by a delay in premium payments from the state of New York of approximately \$700 million and growth in our Medicare Prescription Drug Plan (PDP) business, which used working capital.

## Other Events

- In April 2020, Centene's subsidiary, Centurion, was awarded a contract by the Kansas Department of Administration to provide healthcare services in the Department of Corrections' facilities. The two-year contract is expected to commence on July 1, 2020 and includes two, two-year renewal options.
- In April 2020, Centurion began providing medical services, behavioral healthcare, and substance abuse treatment within four prisons and six community corrections centers across the state of Delaware.
- In February 2020, Centene issued \$2.0 billion 3.375% Senior Notes due 2030. The Company used a portion of the net proceeds to redeem all of its outstanding \$1.0 billion 6.125% Senior Notes due 2024, including the call premiums, accrued interest and costs and expenses related to the redemption and termination of the \$1.0 billion interest rate swap associated with the notes. The Company also intended to use remaining proceeds to redeem its \$1.0 billion 4.75% Senior Notes due 2022, and

related interest and premiums. However, as a result of the spread of COVID-19 and the resulting disruption and volatility in the global capital markets, the Company has deferred the redemption of the 2022 notes at this time.

## Accreditations

- In March 2020, Centene's Iowa subsidiary, Iowa Total Care, earned Accreditation from the National Committee for Quality Assurance (NCQA).
- In February 2020, Centene's subsidiary, Envolve People Care, earned Accreditation from NCQA.
- In January 2020, Centene's subsidiary, Sunshine Health Plan, earned Accreditation from NCQA.

## COVID-19 Pandemic

In March and April 2020, Centene announced a series of actions in support of various populations impacted by the COVID-19 crisis. A detailed list of specific actions taken by the Company in response to the pandemic is shown on page 16 of this release.

### Statement of Operations: Three Months Ended March 31, 2020

- For the first quarter of 2020, total revenues increased 41% to \$26.0 billion from \$18.4 billion in the comparable period in 2019. The increase over the prior year was due to the acquisition of WellCare, growth in the Health Insurance Marketplace business, expansions and new programs in many of our states throughout 2019 and 2020, particularly Iowa and Pennsylvania, and the reinstatement of the health insurer fee in 2020, partially offset by the divestiture of our Illinois health plan and the timing of pass through payments from the state of New York.
- HBR of 88.0% for the first quarter of 2020 represents an increase from 85.7% in the comparable period in 2019. The year-over-year increase was attributable to the Health Insurance Marketplace business where margins continue to normalize, as expected and consistent with the previous guidance shared. The increase also includes the acquisition of WellCare and new or expanded markets, which initially operate at a higher HBR. These increases were partially offset by the reinstatement of the health insurer fee.
- The SG&A expense ratio was 9.9% for the first quarter of 2020, compared to 9.6% in the first quarter of 2019. The increase to the SG&A expense ratio was driven by higher acquisition related expenses due to the closing of the WellCare acquisition, partially offset by the addition of the WellCare business, which operates at a lower SG&A ratio.
- The Adjusted SG&A expense ratio was 8.6% for the first quarter of 2020, compared to 9.5% in the first quarter of 2019. The Adjusted SG&A expense ratio benefited from the addition of the WellCare business, which operates at a lower SG&A ratio, and the leveraging of expenses over higher revenues.
- During the first quarter of 2020, the Company recorded \$72 million of non-cash impairment of its third-party care management software business.
- During the first quarter of 2020, the Company recognized a \$93 million gain in investment and other income related to the divestiture of certain products of the Company's Illinois health plan as part of the previously announced divestiture agreements associated with the WellCare Acquisition.
- During the first quarter of 2020, the Company issued \$2.0 billion 3.375% Senior Notes due 2030 (the 2030 Notes). The Company used a portion of the net proceeds from the 2030 Notes to redeem all of its outstanding \$1.0 billion 6.125% Senior Notes due 2024. The Company recognized a pre-tax loss on extinguishment of approximately \$44 million, including the call premium, the write-off of unamortized debt issuance costs, and a loss on the termination of the \$1.0 billion interest rate swap associated with the

notes.

- The effective tax rate was 64.9% for the first quarter of 2020, compared to 24.2% in the first quarter of 2019. The increase in the effective tax rate was driven by the reinstatement of the health insurer fee in 2020, the non-deductibility of certain acquisition related expenses, and the tax impact associated with the Illinois divestiture. For the first quarter of 2020, our effective tax rate on adjusted earnings was 24.8%.

## Balance Sheet

At March 31, 2020, the Company had cash, investments and restricted deposits of \$22.2 billion and maintained \$2.0 billion of cash and cash equivalents held by unregulated entities. Medical claims liabilities totaled \$11.4 billion. Total debt was \$17.3 billion, which included \$588 million of borrowings on our \$2.0 billion revolving credit facility at quarter end. The debt to capitalization ratio was 41.9% at March 31, 2020, excluding \$202 million of non-recourse debt. Our debt to capital ratio would have been 38.9% at March 31, 2020, when netting unregulated cash and cash equivalents with debt, and excluding non-recourse debt.

A reconciliation of the Company's change in days in claims payable from the immediately preceding quarter-end is presented below:

Days in claims payable, December 31, 2019	45
Timing of claims payments	<u>2</u>
Days in claims payable, March 31, 2020 <sup>(1)</sup>	<u>47</u>

<sup>(1)</sup> A pro-forma adjustment has been made to medical costs to include a full quarter of WellCare medical costs. Using actual medical costs, days in claims payable was 51.

## Outlook

## Non-GAAP Financial Presentation

The Company is providing certain non-GAAP financial measures in this release as the Company believes that these figures are helpful in allowing investors to more accurately assess the ongoing nature of the Company's operations and measure the Company's performance more consistently across periods. The Company uses the presented non-GAAP financial measures internally to allow management to focus on period-to-period changes in the Company's core business operations. Therefore, the Company believes that this information is meaningful in addition to the information contained in the GAAP presentation of financial information. The presentation of this additional non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP.

Specifically, the Company believes the presentation of non-GAAP financial information that excludes amortization of acquired intangible assets and acquisition related expenses, as well as other items, allows investors to develop a more meaningful understanding of the Company's performance over time. The tables below provide reconciliations of non-GAAP items (\$ in millions, except per share data):

GAAP SG&A expenses	\$ 2,384	\$ 1,609
Acquisition related expenses	295	17
Adjusted SG&A expenses	<u>\$ 2,089</u>	<u>\$ 1,592</u>

To provide clarity on the way management defines certain key metrics and ratios, the Company is providing a description of how the metric or ratio is calculated as follows:

- **Health Benefits Ratio (HBR) (GAAP)** = Medical costs divided by premium revenues.
- **SG&A Expense Ratio (GAAP)** = Selling, general and administrative expenses divided by premium and service revenues.
- **Adjusted SG&A Expenses (non-GAAP)** = Selling, general and administrative expenses, less acquisition related expenses.
- **Adjusted SG&A Expense Ratio (non-GAAP)** = Adjusted selling, general and administrative expenses divided by premium and service revenues.
- **Adjusted Net Earnings (non-GAAP)** = Net earnings less amortization of acquired intangible assets, less acquisition related expenses, as well as adjustments for other items, net of the income tax effect of the adjustments.
- **Adjusted Diluted EPS (non-GAAP)** = Adjusted net earnings divided by weighted average common shares outstanding on a fully diluted basis.
- **Debt to Capitalization Ratio (GAAP)** = Total debt, divided by total debt plus total stockholder's equity.

- **Debt to Capitalization Ratio Excluding Non-Recourse Debt (non-GAAP)** = Total debt less non-recourse debt, divided by total debt less non-recourse debt plus total stockholder's equity.
- **Average Medical Claims Expense (GAAP)** = Medical costs for the period, divided by number of days in such period. Average Medical Claims Expense is most often calculated for the quarterly reporting period.
- **Days in Claims Payable (GAAP)** = Medical claims liabilities, divided by average medical claims expense. Days in Claims Payable is most often calculated for the quarterly reporting period.

In addition, the following terms referenced in this press release and other Company filings are defined as follows:

- **State Directed Payments:** Payments directed by a state that have minimal risk, but are administered as a premium adjustment. These payments are recorded as premium revenue and medical costs at close to a 100% HBR. The Company has little visibility to the timing of these payments until they are paid by a state.
- **Pass Through Payments:** Non-risk supplemental payments from a state that the Company is required to pass through to designated contracted providers. These payments are recorded as premium tax revenue and premium tax expense.

Except as may be otherwise required by law, we undertake no obligation to update or revise the forward-looking statements included in this press release, whether as a result of new information, future events or otherwise, after the date hereof. You should not place undue reliance on any forward-looking statements, as actual results may differ materially from projections, estimates, or other forward-looking statements due to a variety of important factors, variables and events including but not limited to: uncertainty as to our expected financial performance following completion of the WellCare Acquisition; the possibility that the expected synergies and value creation from the WellCare Acquisition will not be realized, or will not be realized within the expected time period; the risk that unexpected costs will be incurred in connection with the integration of the WellCare Acquisition or that the integration of WellCare will be more difficult or time consuming than expected; unexpected costs, charges or expenses resulting from the WellCare Acquisition; the inability to retain key personnel; disruption from the completion and integration of the WellCare Acquisition, including potential adverse reactions or changes to business relationships with customers, employees, suppliers or regulators, making it more difficult to maintain business and operational relationships; the risk that we may not be able to effectively manage our expanded operations; our ability to accurately predict and effectively manage health benefits and other operating expenses and reserves; competition; membership and revenue declines or unexpected trends; disasters or major epidemics; the impact of the COVID-19 pandemic and response by governments and other third parties; changes in healthcare practices, new technologies, and advances in medicine; increased healthcare costs; changes in economic, political or market conditions; changes in federal or state laws or regulations, including changes with respect to income tax reform or government healthcare programs as well as changes with respect to the Patient Protection and Affordable Care Act and the Health Care and Education Affordability Reconciliation Act, collectively referred to as the Affordable Care Act (ACA) and any regulations enacted thereunder that may result from changing political conditions or judicial actions, including the ultimate outcome in "Texas v. United States of America" regarding the constitutionality of the ACA; rate cuts or other payment reductions or delays by governmental payors and other risks and uncertainties

affecting our government businesses; our ability to adequately price products on the Health Insurance Marketplaces and other commercial and Medicare products; tax matters; the outcome of legal and regulatory proceedings; changes in expected contract start dates; provider, state, federal and other contract changes and timing of regulatory approval of contracts; the expiration, suspension, or termination of our contracts with federal or state governments (including but not limited to Medicaid, Medicare, TRICARE or other customers); the difficulty of predicting the timing or outcome of pending or future litigation or government investigations; challenges to our contract awards; cyber-attacks or other privacy or data security incidents; the possibility that the expected synergies and value creation from acquired businesses, including businesses we may acquire in the future, will not be realized, or will not be realized within the expected time period; the exertion of management's time and our resources, and other expenses incurred and business changes required in connection with complying with the undertakings in connection with any regulatory, governmental or third party consents or approvals for acquisitions; disruption caused by significant completed and pending acquisitions, including, among others, the WellCare Acquisition, making it more difficult to maintain business and operational relationships; the risk that unexpected costs will be incurred in connection with the completion and/or integration of acquisition transactions; changes in expected closing dates, estimated purchase price and accretion for acquisitions; the risk that acquired businesses will not be integrated successfully; the risk that we may not be able to effectively manage our operations as they have expanded as a result of the WellCare Acquisition; restrictions and limitations in connection with our indebtedness; our ability to maintain or achieve improvement in the Centers for Medicare and Medicaid Services (CMS) Star ratings and maintain or achieve improvement in other quality scores in each case that can impact revenue and future growth; availability of debt and equity financing, on terms that are favorable to us; inflation; foreign currency fluctuations; and risks and uncertainties discussed in the reports that Centene has filed with the Securities and Exchange Commission. This list of important factors is not intended to be exhaustive. We discuss certain of these matters more fully, as well as certain other factors that may affect our business operations, financial condition and results of operations, in our filings with the Securities and Exchange Commission (SEC), including our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K. Due to these important factors and risks, we cannot give assurances with respect to our future performance, including without limitation our ability to maintain adequate premium levels or our ability to control our future medical and selling, general and administrative costs.

Plus: reinsurance recoverable	21
<b>Balance, March 31, 2020</b>	<b>\$ 11,413</b>

Centene's claims reserving process utilizes a consistent actuarial methodology to estimate Centene's ultimate liability. Any reduction in the "Incurred related to: Prior period" amount may be offset as Centene actuarially determines "Incurred related to: Current period." As such, only in the absence of a consistent reserving methodology would favorable development of prior period claims liability estimates reduce medical costs. Centene believes it has consistently applied its claims reserving methodology. Additionally, approximately \$40 million was recorded as a decrease to premium revenues resulting from development within "Incurred related to: Prior period" due to minimum HBR and other return of premium programs.

The amount of the "Incurred related to: Prior period" above represents favorable development and includes the effects of reserving under moderately adverse conditions, new markets where we use a conservative approach in setting reserves during the initial periods of operations, receipts from other third party payors related to coordination of benefits and lower medical utilization and cost trends for dates of service March 31, 2019, and prior.

### **Our Response to COVID-19**

*Demonstrating our commitment to our members and the communities we serve, employees, and providers and government partners.*

<b>Members and Communities</b>
Waiving COVID-19 related prior authorizations and member cost sharing for related screening, testing and treatment for all Medicare, Medicaid and Marketplace members
Delivering 50,000 gift cards, with \$35 of value each, to be used to purchase essential healthcare and educational items including diapers, over-the-counter medicines, cleaning supplies, and books
Donating 1 million meals a month for 12 months to feed our neighbors in communities all over the country
Providing grants to Area Agencies on Aging to enable grocery and meal deliveries for members with disabilities who are unable to access nutritious food
Matching funds in partnership with workforce development boards and other safety net organizations to prepare them for a career in healthcare to support the direct care workforce and newly unemployed individuals

<b>Employees</b>
10 additional working days of paid leave to support employees
Waiving prior authorizations and employee cost sharing for COVID-19 related screening, testing and treatment
Encouraging employees to work from home, with approximately 90% working remotely
Providing essential workers with a one-time payment of \$750 in appreciation and recognition of their willingness to serve in their important office roles
Scheduling essential workers to preserve social distancing, and enhancing health and safety protocols such as daily cleaning and disinfecting for essential workers
Establishing a Medical Reserve Leave policy to support clinical staff paid leave and benefits for up to three months of volunteer COVID pandemic service
Hiring continues across the country to fill nearly 2,000 open positions

<b>Providers and Government Partners</b>
Expediting the rollout of FirstNet that will streamline access to affordable, high-speed wireless broadband services for primary care providers in rural and underserved communities
Dedicating funds to the Medicaid Telehealth Partnership's efforts, which will be used to purchase equipment and provide training and technical assistance to FQHCs.

Expediting the distribution of approximately 2 million pieces of PPE including safety goggles, facemasks, hand sanitizers and disaster kits
Extending grants to providers to assist with the upfront investment costs of new devices and equipment
Developing a new Provider Accessibility Initiative (PAI) COVID-19 Web Series to provide timely recommendations on how providers and organizations can deliver disability-competent care during the pandemic and beyond
