By delivering better health outcomes at lower costs

ADDRESSING MEMBER NEEDS THROUGH INNOVATION

Personal Member Outreach and Support

Through MemberConnections® and other outreach programs, representatives visit members where they live and work to guide them through the complex healthcare system and get them the community resources they need.

Incentives for Healthier Living

Incentive programs like CentAccount® encourage healthy activity, such as regular check-ups and routine screenings, to strengthen the relationships between members and their caregivers while promoting personal healthcare responsibility.

Helping Mothers and their Babies

Start Smart for Your Baby® is an extensive, award-winning education, care management and outreach program for pregnant members, new moms and their babies — helping to lower the risks of premature births and admissions to neonatal intensive care units.

Technology for Better Healthcare

Centene uses technology to improve care coordination, eliminate redundancy and reduce errors. Our state-of-the-art systems provide members, healthcare providers and caregivers secure access to health information and treatment history, including prescription drug use, immunization history, reported allergies, past doctor visits, behavioral health history, laboratory tests and vital signs.

QUALITY means going above-and-beyond to make sure our members get appropriate preventive care to stay healthy, and that they receive the right care in the right place. We are proud to have our quality performance efforts formally recognized by both URAC and the National Committee for Quality Assurance (NCQA).
